SECURITY INDICATORS

U.S. TROOP FATALITIES SINCE MARCH 19, 2003¹

Total from March 19, 2003 (start of major combat operations) through September 25, 2005:

Fatalities (all kinds): **1,917**

Fatalities in hostile incidents: **1,494**

Fatalities in non-hostile incidents: **423**

NOTE ON U.S. TROOP FATALITIES SINCE MARCH 19, 2003 TABLE:

The daily Department of Defense casualty reports that we use for our monthly estimates on U.S. troops killed doesn't make entirely clear when in a 24 hour period casualties were incurred. Since the reports are published 11AM daily, there is the possibility that our numbers for January 2005 and onwards are slightly off due to uncertainties about whether casualties occurred on the first and last day of each month. We have chosen to interpret the numbers in the casualty report as representing fatalities that occurred throughout the previous day. Total fatalities include five civilians working for the Department of Defense.

NOTE ON CAUSE OF DEATH DETAIL TABLE: Helicopter losses include deaths caused by both non-hostile helicopter accidents and helicopters downed by hostile fire. Hostile losses were as follows: 3/03 (8 killed); 4/03 (2); 11/03 (39); 1/04 (10); 4/04 (2); 5/05 (2); 6/05 (2); total: 65. Non-hostile losses were as follows: 4/03 (6 killed); 5/03 (7); 9/03 (1); 1/04 (4); 2/04 (2); 8/04 (2); 10/04 (2); 12/04 (2); 1/05 (33); total: 59. The “Non-Hostile Causes” data then does not include non-hostile helicopter losses.

The total number of deaths as listed here may vary slightly from the Total Fatalities listed under “US Troop Fatalities Since March 19, 2003” because the two charts use data from different sources. Any discrepancy is likely to be a result of a difference in the cut-off time until which data was included.

U.S. TROOPS WOUNDED IN ACTION SINCE MARCH 2003³

Total from March 19, 2003 through September 25, 2005: 14,641

The daily Department of Defense casualty reports that we use for our monthly estimates on U.S troops killed does not make it entirely clear when in a 24-hour period casualties were incurred. Since the reports are published at 10AM daily, there is possibility that our numbers for January 2005 and onwards are slightly off due to uncertainties about whether casualties occurred on the first or the last of each month.

IRAQI MILITARY & POLICE KILLED MONTHLY⁷

Total June 2003 through September 25, 2005: 3,248

1,300 Iraqi military and police were killed between June 2003 and January 4, 2005 according to Iraqi Minister of Interior Falah Hasan Al-Naqib. "Iraqi Officers, Police Members Killed so Far Total 1,300," Kuwait News Agency (KUNA) January 4, 2005.

ESTIMATES OF IRAQI CIVILIANS KILLED SINCE THE START OF THE WAR

Source	Estimate
Iraq Body Count	26,100 – 29,400 as of September 24, 2005 ⁸
Statement by British Foreign Secretary Jack Straw	>10,000 as of February, 2004
Shaik Omar Clinic, Baghdad	10,363 as of September 8, 2004 (in Baghdad and surrounding towns alone)
Amnesty International (London)	>10,000 as of September 8, 2004
The Human Rights Organization, Iraq	>30,000 as of September 8, 2004
Iraq Index (assume 5,630-10,000 Iraqi civilians killed from March 19, 2003 – April 30, 2003 as reported in detail by Iraq Body Count)	Not including deaths from crime as of August 31, 2005: 13,800 – 24,300 Including deaths from crime as of August 31, 2005: 33,100 – 67,200

IRAQI CIVILIANS KILLED AS A RESULT OF ACTS OF WAR SINCE MAY 1, 2003

Total May 2003 through September 25, 2005: 9,670 – 16,892

These numbers do not include Iraqi civilians killed during major combat operations March 19, 2003-April 30, 2003. 203-350 Iraqi civilians were killed July 1-14, 2005.

NOTE ON IRAQI CIVILIANS KILLED TABLE: This chart is based upon data from Iraq Body Count (<http://www.iraqbodycount.net/database/>), but does not include entries that span multiple months, were recorded at the morgue, or clearly involve the death of Iraqi police, police recruits, or Iraq Civil Defense Forces in an attempt to index only civilians killed by acts of war. IBC removes military personnel. This formulation forms the lower bound. We recognize that these estimates are most probably lower than the actual number since many separate incidents go unreported or unnoticed. The upper bound is therefore 1.75 times the lower bound, a rough estimate which reflects the fact that the estimates for civilian casualties from the Iraqi Ministry of the Interior were 75 percent higher than those of our Iraq Body Count-based estimate over the December 2003 – May 2005 period. Ellen Knickmeyer, “Iraq Puts Civilian Toll at 12,000.” Washington Post, June 3, 2005. Numbers for the current month are typically incomplete through the next month as the database continues to be updated.

CAR BOMBS IN IRAQ (LETHAL AND NON-LETHAL)²

MULTIPLE FATALITY BOMBINGS¹⁰

Total as of September 25, 2005: 439 (of which at least 221 were suicide bombings)

KILLED AND WOUNDED IN MULTIPLE FATALITY BOMBINGS¹¹

Total as of September 25, 2005:

Killed: 4,025

Wounded: 8,719

NOTE ON MULTIPLE FATALITY BOMBINGS AND KILLED AND WOUNDED IN MULTIPLE FATALITY BOMBINGS TABLES: Included as data for these graphs are any bombings (including IEDs / roadside bombs) that caused at least three fatalities. The data on multiple fatality IED / roadside bombs are estimates and may have a margin of error of +/- one bomb and approximately five fatalities and five wounded.

CRIME-RELATED DEATHS IN BAGHDAD SINCE MAY, 2003¹²

Estimated annualized murder rate per 100,000 citizens [i] (For comparison Washington DC rate: 43[ii])

NOTE ON CRIME RELATED DEATHS IN BAGHDAD: Estimates for each month are typically based on the number of bodies brought to the Baghdad morgue with mortal gunshot wounds. We recognize that our estimates could be too high as a result of that some of the gunshot victims could be insurgents killed intentionally by U.S. military, but also that they could be too low since many murder victims are never taken to the morgue, but buried quickly and privately and therefore never recorded in official tallies. The homicide rate is calculated based on an estimated population of 5.6 million people in Baghdad.

NOTE ON CRIME RELATED DEATHS IN BAGHDAD: Interpol lists the following nationwide numbers per 100,000 citizens for countries in the region: Libya 2.08, Jordan 6.33, Lebanon 3.38, Saudi Arabia, 0.71. However, Interpol notes that these [nationwide] statistics cannot be used as a basis for comparison between different countries. This is partly because “police statistics reflect reported crimes, but this only represents a fraction of the real level. The volume of crimes not reported to the police may depend on the actions, policies and perceptions of the police. These can vary with time, as well as from country to country.” Because of the inherent difficulty in interpreting and comparing international murder rates, all such statistics – including those stated in the table above – should be interpreted guardedly.

NON-IRAQI CIVILIAN CONTRACTORS KILLED IN IRAQ¹³

Total as of September 25, 2005: 269

NOTE ON NON-IRAQI CIVILIAN CONTRACTORS KILLED IN IRAQ: This list is incomplete and does not include an additional 44 contractors that were killed up until December 31, 2004. Since we do not know during which month these deaths occurred they are not represented in the graph above.

As of March, 2005, there were more than 20,000 foreign (non-Iraqi) private military contractors in Iraq. 6,000 of these are in armed tactical roles. Peter W. Singer, "Outsourcing War," *Foreign Affairs*, March 2005.

NON-IRAQI CIVILIANS (INCLUDING CONTRACTORS) KILLED SINCE MAY, 2003¹⁴

Total through September 25, 2005: 314

KIDNAPPINGS PER DAY IN BAGHDAD¹⁵

Total through September 25, 2005	234	42 killed, 119 released, 3 escaped, 3 rescued, 67 unknown

NOTE ON FOREIGN NATIONALS KIDNAPPED IN IRAQ TABLE: The Iraqi Interior Ministry estimates that 5,000 Iraqis were kidnapped between December 2003 and late April 2005. Haifa Zangana, "Blair Made a Pledge to Iraqis Once," *The Guardian*, April 22, 2005.

*Developments: This category shows activity in the status of hostages, but does not necessarily apply to hostages kidnapped during the same month. Please see relevant footnote for more information.

TOTAL NUMBER OF INSURGENTS DETAINED OR KILLED²¹

NOTE ON TOTAL NUMBER OF INSURGENTS DETAINED OR KILLED TABLE: The estimate of suspected insurgents killed or detained since May 2003 is a very rough one. The substantial increase in number of people detained or killed in November 2003 and onwards may not imply a huge increase in people detained or killed but rather that the data improved starting that month.

IRAQI PRISON POPULATION

NOTE ON NATIONWIDE UNEMPLOYMENT TABLE: Estimates of Iraq’s unemployment rate varies, but we estimate it to be between 28-40%. The CPA has referred to a 25% unemployment rate, the Iraqi Ministry of Planning mentioned a 30% unemployment rate, whereas the Iraqi Ministry of Social Affairs claims it to be 48%. “Reconstructing Iraq,” *International Crisis Group*, Report, September 2, 2004, p. 16, footnote 157. There is an inherent difficulty in measuring the Iraqi rate of unemployment over time. Because recent estimates are likely to be more accurate than older ones, but also higher, this means that despite an improvement in the economic situation nationwide, the numbers give the impression that it is getting worse. Considering the increase in entrepreneurial activity after the end of the war, we have for the purposes of this database assumed that there has been an improvement in unemployment levels, and hence weighted information supporting such a conclusion heavier than contradictory data reports.

AMERICAN AID APPROPRIATED, OBLIGATED AND DISBURSED TOWARDS THE IRAQ RELIEF AND RECONSTRUCTION FUND (IRRF I & II)⁹⁵

NOTE: An ‘appropriation’ is defined as a plan, approved by the Office of Management and Budget, to spend resources provided by law. *Quarterly Update to Congress: 2207 Report*, October 2004. An ‘obligation’ can be defined as “a definite commitment which creates a legal liability of the Government for the payment of appropriated funds for goods and services ordered or received.” GAO/OGC-91-5: *Principles of Federal Appropriations Law*, Office of the General Council, July 1991. A ‘disbursement’ is an actual payment (check goes out the door) for goods/services received. *GAO-04-902 R: Rebuilding Iraq*, General Accounting Office, June 2004.

NOTES ON IRAQ: ESTIMATED EXTERNAL DEBT STOCK TABLE:

- A) Some debt has been reconciled, and the amount of reconciled debt is less than the initial claim. As a result, the estimates of debt outstanding prior to debt reduction are lower than those in the 2004 EPCA staff report.
- B) Assumes comparable debt reduction to all external debt.
- C) The projection assumes the deferral of payments of principal and most interests until 2011.
- D) The projection includes new debt. Iraq cleared its arrears to the Fund and the Bank in 2004.
- E) Debt service is actual amount paid (not accrued), excluding repayment of arrears.
- F) Assumes no additional debt other than a larger disbursement of Fund credit.
